

Hydraulic Snowblower SB360X Series

The best snow blower on the market just got better! Throw snow up to 40' while clearing paths down to the ground. Features a 4 bladed fan and geared chute rotation! Two important factors must be considered when purchasing a snow blower for your skid steer loader – gallons per minute and hydraulic pressure (psi) for the perfect blend of speed and torque. For this reason we match our blowers directly to the gallons flow rate/PSI of the operator's machine. Discuss these factors with your product specialist when purchasing.

17" SERRATED AUGER WITH A 20" DIAMETER 4 BLADE FAN DESIGN

NEW CHUTE DESIGN IS HYDRAULIC GEARED WITH 270 DEGREES OF ROTATION

5/8" X 6" BOLT-ON CUTTING EDGE MAKES CLOSE CUTTING TO THE GROUND

SKID STEER

FEATURES & BENEFITS

- Patent pending serrated auger is now standard on all hydraulic snow blowers
- HD geared chute with 270 degrees allows the operator to precisely place snow stream
- Proven 4 blade fan virtually eliminates chute clogging
- Replaceable bolt-on high-carbon steel cutting edge
- Hydraulic relief - no shear pins
- Easily adjustable depth skid shoes
